Making your security our priority

## AsSec Airtube Systems Reducing Risk on the Shop Floor

Our unique system allows capsules of money to be deposited into a collection point situated at the till. The capsule is then taken through a tube system and deposited directly into a locked safe.

- \* Avoids hold ups on the shop floor whilst carrying money to the cash office
- \* Money is deposited on a regular basis, keeping the amount in the till minimal
- \* Capsules are securely deposited into a locked safe out of site and fitted with a time delay unit
- \* Gives peace of mind knowing staff are not going to be attacked carrying large amounts of money across shop floors

### The only Cash Transfer System designed for Retailers

- \* Increase profitability
- \* Eliminate attendant senior staff/management involvement in cash lifts
- \* Better utilisation of staff
- \* No need to close point of sale during cash collection
- \* Remove peaks from cash counting/reconciliation
- \* Reduce risk and value of checkout snatches
- \* Move cash through public areas securely, without staff and customer risk
