## AsSec Audio Vision Panel

### Secure Vision for Walls and Doors

The vision panel provides the means of vision, safe from ballistic or physical attack, in to or out from a secure area.

Available in two forms - with or without two-way electronic speech transmission - it can be fitted to internal or external walls or security doors and is ideal for use with a bulk transfer unit.

#### Product Specification

Dimensions (mm)

**Overall:** 204(h) x 540(w) x 74(d)

**Glazed area:** 105(h) x 442(w)

**Aperture:** 340(h) x 490(w)

**Construction:** 3mm thick mild steel; glazing:  
40mm anti-spall bullet  
resistant glass

**Finish:** Charcoal grey hammer polyester  
powder coat to 8-4734816

The Vision Panel's steel glazing frame and bullet resistant anti-spall glass provides protection to G2/S86 level. The vision panel also provides protection against physical attack.. A lift-up flap on the secure side ensures privacy when the vision panel is not in use. The external flange is designed to transmit the energy of a physical attack onto the wall surface whilst also acting as an architrave.

#### Summary

- \* Secure vision through walls and doors
- \* Bullet resistant to G2/S86
- \* Optional electronic voice enhancement
- \* Extensively tried and tested
